• Thank you to Thalassaemia International Federation “Mr Panos Englezos & Dr Androula Elefteriou & organizer’s Team Mr Rawad Merhi to this initiative and for giving us the honor to attending this important Preceptorship;

• Thank you to “Pr M. Khattab & his Team of Doctors especially Dr N. El Ansari & Mrs H. El Moufaker for his warm reception in the Children’s Hospital of Rabat and for their rigorous assistance during all the period of Preceptorship.

• Thank you to Pr A. El Bashlawy for her important informative presentations and for sharing with us her experience in the Management of Thalassaemia patients in the Referent Thalassaemia Center of Care- Egypt.
Introduction

The Preceptorship on Clinical Management of Thalassaemia constituted part of TIF ‘s Educational Programme, Organised by Thalassaemia International Federation in the Children’s Hospital of Rabat Moroccco in 08-.12 april 2019 with collaboration of Pr M.Khattab, 

And the cooperation of Pr A.EL Bashlawy.

And our Participation from Algeria Pr A.Djenouni &Dr H.Dahmani

Our goals in this Preceptorship as mentioned by TIF was achieved with success and a great enthousiam with active participation of many doctors from the Children’s Hospital of Rabat.

We have conducted several local visits in the various laboratories at the University Hospital of Rabat and the Institute of Health and also visited the National & Regional Blood Bank of Rabat;

Without forgetting the wonderful experience with Moroccan thalassaemia patients during our training.

Conclusion

It was an exceptional experience which we acquired a lot from Pr A. El Bashlawy and her experience in the Thalassaemia Center in Care -Egypt;

and from Pr M. Khattab and his team which, we shared our experience and discussed several difficult clinical cases for a better management of thalassaemia.

Currently, we are better oriented and focused on how should be the Reference Center of Thalassaemia.

We hope more experience of exchange across countries like this Preceptorship in the future.

And we remain at your disposal for any collaboration.
